

**SUPPORTIVE
COHOUSING**

SUPPORTIVE COHOUSING

- ✓ Monitoring of tenants' fragility
- ✓ Attention in social security issues
- ✓ Abusive occupations, violations of guidelines, conflict mediation
- ✓ Facility management for litigations
- ✓ Management of building's maintenance
- ✓ Tenants' empowerment about building's management issues
- ✓ Quality of life for tenants (waste, maintenance of green and common areas, energy saving...)
- ✓ Empowerment of tenant's relationships

GOOD GOVERNANCE AND FAIR RELATIONS

ATC has a lot of institutional aims but also social ones in accordance with its good governance and fair relations with stakeholders. The aim of this project is to favor the social integration in public housing neighborhoods. The **SUPPORTIVE COHOUSING** project is the latest version from an experience that has lasted 10 years in Turin and province. The main feature of this project is to build up a real social network that includes ATC, volunteers and tenants. The project is in cooperation with the Municipality of Turin.

The guest stars of the **SUPPORTIVE COHOUSING** project are young volunteers that go to live in the public housing neighborhoods. The County legislation gives them the chance of a rental reduction in exchange for at least 10 hours per week in volunteer actions dedicated to an intervention plan in favor of tenants. Every action in the plan is evaluated by a working group made up of social service workers, ATC, local police, organizations and associations that manage the **SUPPORTIVE COHOUSING** project.

Today in Turin there are 7 **SUPPORTIVE COHOUSING** projects in 7 different. The total amount of flats involved is 30 for about 50 cohabitants in rotation.

The **SUPPORTIVE COHOUSING** project takes advantage of the support from "Housing Programme" by Compagnia di San Paolo.
