

Community Gardens

Chelsea Flower Show in Poplar

The Limborough Green Community Garden on the Burdett Estate won gold at the Chelsea Flower Show 2015.

The garden was created by Chris Beardshaw as part of Morgan Stanley Healthy Cities. It includes a safe play area for children, food growing section, and a community training kitchen funded by the People's Postcode Trust.

Poplar HARCA Community Gardens

Our community gardens are green, open spaces that transform our estates into hubs of environmentally friendly activity. Many of our residents grow their own vegetables; the Kodu (Bengali pumpkin) being a popular option!

Run by gardening groups of local people and supported by our community centres, we're proud of the innovative projects that have come out of our gardens. Rescued battery hens, bees producing our very own Poplar Honey, and BBQs and events bringing the community together: all thanks to the 15 beautiful gardens maintained around our estates.
